An investor should consider the investment objectives, risks, charges and expenses of the Fund(s) carefully before investing. For a free copy of the Fund's prospectus, or summary prospectus, which contains this and other information, visit us at www.voyainvestments.com or call (800) 992-0180. Please read the prospectus carefully before investing.

INVESTMENT MANAGEMENT

Reliable Partner | Reliable Investing®

* Diversification does not ensure a profit or may not protect against loss in a declining market.

¹ The Adviser has contractually agreed to limit expenses of the Fund. This expense limitation agreement excludes interest, taxes, investment-related costs, leverage expenses, and extraordinary expenses and may be subject to possible recoupment. Please see the Fund's prospectus for more information. The expense limits will continue through at least 2020-07-01. If the Fund were not to borrow, or the interest expense on the borrowings is excluded from the expenses of the Fund, the net annual expenses for Class A, Class C, Class I, and Class W shares would be 1.35%, 1.85%, 1.10%, and 1.10%, respectively.

² Includes maximum 2.50% sales charge.

³ S&P/LSTA Leveraged Loan Index

⁴ Returns-Based Characteristics are shown for Class I shares only based on 5-yr returns. For definitions, see Glossary of Terms.

Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of the period and a sale at net asset value at the end of the period; and assumes reinvestment of dividends, capital gain distribution and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Net asset value equals total Fund assets net of Fund expenses such as operating costs and management fees. Total investment return at net asset value is not annualized for periods less than one year. Performance does not account for taxes. Returns for other share classes vary due to different charges and expenses.

Limited Liquidity For Investors — the Fund does not repurchase its shares on a daily basis and no market for the Fund's Common Shares is expected to exist. To provide a measure of liquidity, the Fund will normally make monthly repurchase offers for not less than 5% of its outstanding Common Shares. If more than 5% of Common Shares are tendered for repurchase by investors, investors may not be able to completely liquidate their holdings in any one month. Shareholders also will not have liquidity between these monthly repurchase dates.

Disclosures

³ The **S&P/LSTA Leveraged Loan Index** is an unmanaged total return index that captures accrued interest, repayments, and market value changes. The Index does not reflect fees, brokerage commissions, taxes or other expenses of investing. **Investors cannot directly invest in an index.**

The S&P/LSTA Leveraged Loan Index is a product of S&P Dow Jones Indices LLC, a division of S&P Global, or its affiliates ("SPDJ"), and has been licensed for use by Voya. Standard & Poor's® and S&P® are registered trademarks of Standard & Poor's Financial Services LLC, a division of S&P Global ("S&P"); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). Voya or its products or services are not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P or their respective affiliates, and none of such parties make any representation regarding the advisability of investing in such product(s) nor do they have any liability for any errors, omissions, or interruptions of the S&P/LSTA Leveraged Loan Index.

⁵ The Standard & Poor's rating scale is as follows, from excellent (high grade) to poor (including default): AAA to D, with intermediate ratings offered at each level between AA and CCC. Anything lower than a BBB-rating is considered a non-investment grade or junk bond. Any security that is not rated by Standard & Poor's is placed in the NR (Not Rated) category.

Due to rounding, numbers presented may not add up to 100% and percentages may not precisely reflect the absolute figures.

The strategy discussed may be available to you as part of your employer sponsored retirement plan. There may be additional plan level fees resulting in personal performance that varies from stated performance. Please call your benefits office for more information.

Investment Risks: The Fund invests primarily in **below investment-grade, floating rate senior loans** that carry a higher than normal risk that borrowers may default in the timely payment of principal and interest on their loans, which would likely cause the value of the Fund's Common Shares to decrease. **Changes in short-term market interest rates** will directly affect the yield on the Fund's Common Shares. If such rates fall, the Fund's yield will also fall. If interest rate spreads on Fund's loans decline in general, the yield on the Fund's loans will fall and the value of the Fund's loans may decrease. When short-term market interest rates rise, because of the lag between changes in such short-term rates and the resetting of the floating rates on loans in the Fund's portfolio, the impact of rising rates will be delayed to the extent of such lag. Because of the **limited secondary market** for floating rate senior bank loans, the Fund's ability to sell its loans in a timely fashion and/or at a favorable price may be limited. An increase in the demand for loans may adversely affect the rate of interest payable on new loans acquired by the Fund, and it may also increase the price of loans purchased by the Fund in the secondary market. A decrease in the demand for loans may adversely affect the price of loans in the Fund's portfolio, which would cause the Fund's NAV to decrease. The Fund's **use of leverage** through borrowings can adversely affect the yield on the Fund's Common Shares. Due to **Limited Liquidity for Investors** the Fund does not repurchase its shares on a daily basis and **no market for the Fund's Common Shares is expected to exist**. If more than 5% of Common Shares are tendered in any month, investors may not be able to completely liquidate their holdings in that month. The Fund may invest up to 20% of its assets in loans to borrowers in countries outside of the U.S. and Canada.

Investment in foreign borrowers involves special risks, including potentially less rigorous accounting requirements, differing legal systems

and potential political, social and economic adversity. The Fund may invest up to 15% of its assets in loans that are denominated in certain foreign currencies; however, the Fund will engage in **currency exchange transactions** to seek to hedge, as closely as practicable, 100% of the economic impact to the Fund arising from foreign currency fluctuations. Other risks of the Fund include but are not limited to:

Borrowings; Preferred Shares; Diversification Risks; and Concentration Risks. Investors should consult the Fund's Prospectus and Statement of Additional Information for a more detailed discussion of the Fund's risks.

Glossary of Terms: **Alpha** measures the difference between a fund's actual return and its level of risk as measured by beta. **Beta** measures the Fund's volatility relative to the overall market. **R²** is the way in which a percentage of a portfolio's total returns represents the portfolio's beta measure. **SEC 30-Day Subsidized Yield (%)** a standardized yield calculation created by the SEC, it reflects the income earned during a 30-day period, after the deduction of the fund's net expenses (net of any expense waivers or reimbursements). **SEC 30-Day Unsubsidized Yield (%)** a standardized yield calculation created by the SEC, it reflects the income earned during a 30-day period, after the deduction of the fund's gross expenses. Negative 30-Day SEC Yield results when accrued expenses of the past 30 days exceed the income collected during the past 30 days. **Sharpe Ratio** is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. **Standard Deviation** is a measure of the degree to which an individual probability value varies from the distribution mean.
