Name of registrant: Voya Separate Portfolios Trust & Voya Funds Trust

Date of fiscal year end: March 31

Date of reporting period: April 1, 2024 – March 31, 2025

### **Item 1: Reports to Shareholders.**

# Voya VACS Series EMHCD Fund

This annual shareholder report contains important information about Voya VACS Series EMHCD Fund for the period of April 1, 2024 to March 31, 2025. You can find additional information about the Fund at <https://individuals.voya.com/product/mutual-fund/holdings/monthly>. You can also request this information by contacting us at 1-800-992-0180.

## What were the Fund's costs for the last year? (based on a hypothetical \$10,000 investment)

Class Name	Costs of \$10K investment	Costs paid as % of \$10K investment
VACS Series	\$15	0.14%

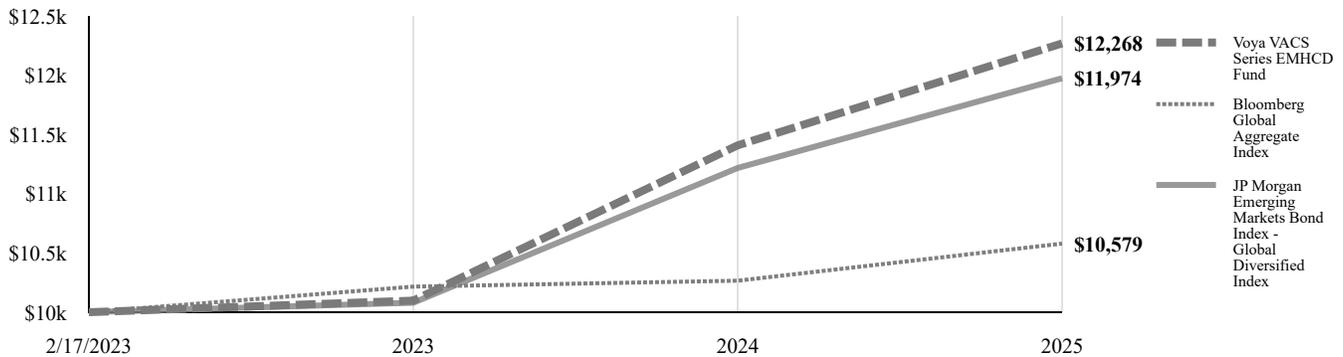

## How did the Fund perform in the past 12 months?

For the year ended March 31, 2025, the Fund outperformed the JP Morgan EMBI Global Diversified Index primarily due to security & country selection, while sector allocation dragged on relative performance.

↑ Top contributors to performance: Regionally, overweight to Latin America benefited relative performance. Within Latin America, selection in Chile, Mexico & Panama were the top contributors. Country selection within Europe & Asia were also additive. From a quality stance, the Fund's overweight to BBB and BB rated issuers was additive.

↓ Top detractors from performance: Sector allocation detracted driven an underweight to sovereigns versus an overweight to emerging market (EM) corporates. From a country perspective, detractors included overweights to Romania and Egypt, and underweights in El Salvador, China and Pakistan. From a quality stance, the Fund's higher quality tilt, specifically its underweight to riskier CCC and below issuers, detracted.

**Total Return Based on \$10,000 Investment**

For the above performance graph and below table: Past performance does not guarantee future results. These do not reflect the deduction of taxes that a shareholder will pay on Fund distributions or the redemption of Fund shares. Figures do reflect deduction of sales charges, if applicable, and assume reinvestment of dividends and capital gains. Performance shown, includes, if applicable, the effect of fee waivers and/or expense reimbursements.

## Average Annual Total Returns

	1 Year	Since Inception (2/17/2023)
Voya VACS Series EMHCD Fund	7.54%	10.15%
Bloomberg Global Aggregate Index	3.05%	2.70%
JP Morgan Emerging Markets Bond Index - Global Diversified Index	6.75%	8.89%

Effective with this report, the Adviser changed the primary benchmark from the JP Morgan Emerging Markets Bond Index - Global Diversified Index to the Bloomberg Global Aggregate Index in accordance with recent changes to regulatory disclosure requirements. The Fund continues to use the JP Morgan Emerging Markets Bond Index - Global Diversified Index as an additional benchmark that the Adviser believes more closely reflects the Fund's principal investment strategies.

# Voya VACS Series HYB Fund

This annual shareholder report contains important information about Voya VACS Series HYB Fund for the period of April 1, 2024 to March 31, 2025. You can find additional information about the Fund at <https://individuals.voya.com/product/mutual-fund/holdings/monthly>. You can also request this information by contacting us at 1-800-992-0180.

## What were the Fund's costs for the last year? (based on a hypothetical \$10,000 investment)

Class Name	Costs of \$10K investment	Costs paid as % of \$10K investment
VACS Series	\$13	0.13%

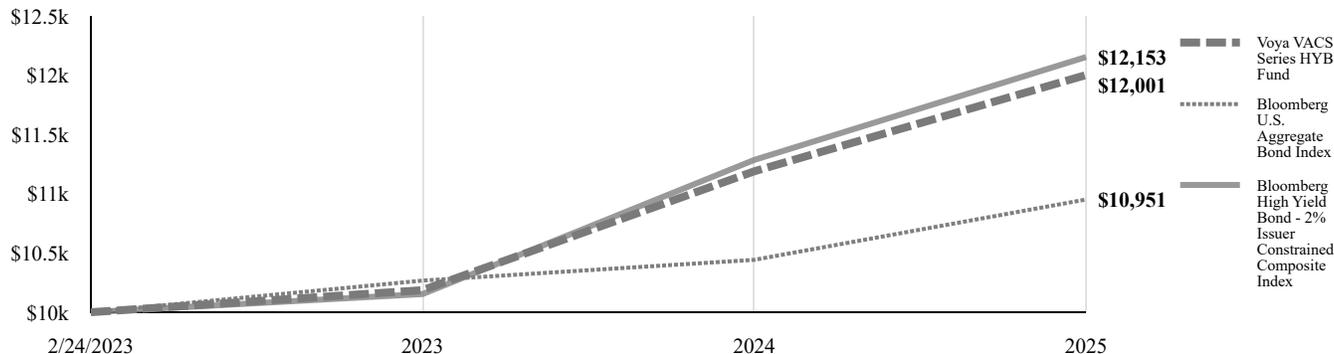

## How did the Fund perform in the past 12 months?

For the year ended March 31, 2025, the Fund underperformed the Bloomberg High Yield - 2% Issuer Constrained Composite Index.

↑ Top contributors to performance: Security selection in select outperforming names in chemicals & in energy space due to preference for midstream over exploration and production (E&P). Lastly, security selection within utilities was additive.

↓ Top detractors from performance: Security selection in cable and satellite, primarily due to the avoidance of prior underperforming credits that rallied due to company-specific reasons. Security selection in healthcare and pharma, primarily due to the owning select underperforming credits and avoiding stressed issuers that saw their price increase on idiosyncratic news. Lastly, selection within utilities.

**Total Return Based on \$10,000 Investment**

For the above performance graph and below table: Past performance does not guarantee future results. These do not reflect the deduction of taxes that a shareholder will pay on Fund distributions or the redemption of Fund shares. Figures do reflect deduction of sales charges, if applicable, and assume reinvestment of dividends and capital gains. Performance shown, includes, if applicable, the effect of fee waivers and/or expense reimbursements.

## Average Annual Total Returns

	1 Year	Since Inception (2/24/2023)
Voya VACS Series HYB Fund	7.26%	9.09%
Bloomberg U.S. Aggregate Bond Index	4.88%	4.49%
Bloomberg High Yield Bond - 2% Issuer Constrained Composite Index	7.69%	9.75%

Effective with this report, the Adviser changed the primary benchmark from the Bloomberg High Yield Bond - 2% Issuer Constrained Composite Index to the Bloomberg U.S. Aggregate Bond Index and the Bloomberg U.S. Securitized MBS/ABS/CMBS Index in accordance with recent changes to regulatory disclosure requirements. The Fund continues to use the Bloomberg High Yield Bond - 2% Issuer Constrained Composite Index as an additional benchmark that the Adviser believes more closely reflects the Fund's principal investment strategies.

**What were the Fund's costs for the last year? (based on a hypothetical \$10,000 investment)**

Class Name	Costs of \$10K investment	Costs paid as % of \$10K investment
VACS Series	\$5	0.05%

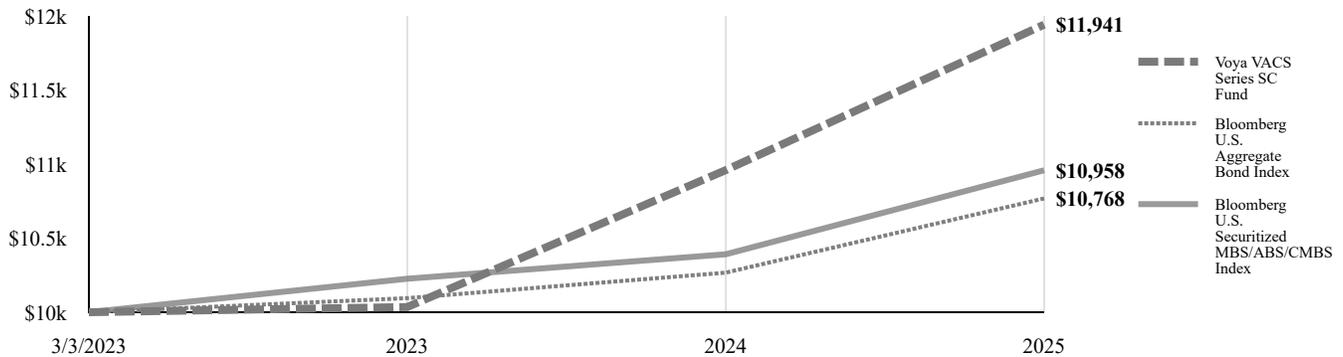

**How did the Fund perform in the past 12 months?**

For the year ended March 31, 2025, the Fund outperformed the Bloomberg U.S. Securitized MBS/ABS/CMBS Index primarily due to security selection & sector allocation. Duration posture also contributed to return.

↑ Top contributors to performance: Security selection was the key driver of outperformance driven by exposure to the below investment-grade (IG) rated parts of the commercial mortgage-backed securities (CMBS). Allocation to non-agency residential mortgage-backed securities (RMBS) was the largest contributor to performance from sector allocation perspective. The Fund maintained an underweight to duration that proved positive given the level of interest rate volatility.

↓ Top detractors from performance: Performance within ABS detracted from performance over the period driven by allocation to collateralized loan obligations (CLO).

**Total Return Based on \$10,000 Investment**

For the above performance graph and below table: Past performance does not guarantee future results. These do not reflect the deduction of taxes that a shareholder will pay on Fund distributions or the redemption of Fund shares. ### **PROXY VOTING INFORMATION**

A description of the policies and procedures that the Funds use to determine how to vote proxies related to portfolio securities is available: (1) without charge, upon request, by calling Shareholder Services toll-free at (800) 992-0180; and (2) on the U.S. Securities and Exchange Commission's ("SEC's") website at [www.sec.gov](http://www.sec.gov). Information regarding how the Funds voted proxies related to portfolio securities during the most recent 12-month period ended June 30 is available without charge and upon request, by calling 1-800-992-0180, or by accessing the SEC's website at [www.sec.gov](http://www.sec.gov).

### **QUARTERLY PORTFOLIO HOLDINGS**

The Funds file their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form NPORT-P. The Funds' Forms NPORT-P are available on the SEC's website at [www.sec.gov](http://www.sec.gov).

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Voya VACS Series EMHCD Fund, Voya VACS Series HYB Fund and Voya VACS Series SC Fund and the Board of Trustees of Voya Separate Portfolios Trust and Voya Funds Trust

### Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Voya VACS Series EMHCD Fund, Voya VACS Series HYB Fund and Voya VACS Series SC Fund (collectively referred to as the "Funds") (each a fund constituting Voya Separate Portfolios Trust, Voya Funds Trust and Voya Separate Portfolios Trust, respectively (collectively referred to as the "Trusts")), including the portfolios of investments, as of March 31, 2025, and the related statements of operations and changes in net assets and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds at March 31, 2025 and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the Trusts	Statement of Operations	Statements of changes in net assets	Financial highlights
Voya VACS Series EMHCD Fund	For the year ended March 31, 2025	For each of the two years in the period ended March 31, 2025	For each of the two years in the period ended March 31, 2025 and the period from February 17, 2023 (commencement of operations) through March 31, 2023
Voya VACS Series HYB Fund	For the year ended March 31, 2025	For each of the two years in the period ended March 31, 2025	For each of the two years in the period ended March 31, 2025 and the period from February 24, 2023 (commencement of operations) through March 31, 2023
Voya VACS Series SC Fund	For the year ended March 31, 2025	For each of the two years in the period ended March 31, 2025	For each of the two years in the period ended March 31, 2025 and the period from March 03, 2023 (commencement of operations) through March 31, 2023

### Basis for Opinion

These financial statements are the responsibility of the Trusts' management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trusts in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trusts are not required to have, nor were we engaged to perform, an audit of the Trusts' internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trusts' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM (CONTINUED)

---

of securities owned as of March 31, 2025, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*Ernst + Young LLP*

We have served as the auditor of one or more Voya investment companies since 2019.

<sup>(1)</sup> Total return is calculated assuming reinvestment of all dividends, capital gain distributions and return of capital distributions, if any, at net asset value and excluding the deduction of sales charges or contingent deferred sales charges, if applicable. Total return for periods less than one year is not annualized.

<sup>(2)</sup> Annualized for periods less than one year.

<sup>(3)</sup> Ratios reflect operating expenses of a Fund. Expenses before reductions/additions do not reflect amounts reimbursed or recouped by the Investment Adviser and/or Distributor or reductions from brokerage service arrangements or other expense offset arrangements and do not represent the amount paid by a Fund during periods when reimbursements or reductions occur. Expenses net of fee waivers reflect expenses after reimbursement by the Investment Adviser and/or Distributor or recoupment of previously reimbursed fees by the Investment Adviser, but prior to reductions from brokerage service arrangements or other expense offset arrangements. Expenses net of all reductions/additions represent the net expenses paid by a Fund. Net investment income (loss) is net of all such additions or reductions.

<sup>(4)</sup> Commencement of operations.

• Calculated using average number of shares outstanding throughout the year or period.

See Accompanying Notes to Financial Statements

**NOTE 1 — ORGANIZATION**

Voya Funds Trust is a Delaware statutory trust and is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). It was organized on August 6, 1998 and was established under a Trust Instrument dated July 30, 1998. It consists of nine separately managed series. This report is for Voya VACS Series HYB Fund (“HYB”), a diversified series of Voya Funds Trust.

Voya Separate Portfolios Trust is a Delaware statutory trust and is registered as an open-end management investment company under the 1940 Act. It was organized on March 2, 2007 and was established under a Declaration of Trust dated March 2, 2007. It consists of fourteen separately managed series. This report is for Voya VACS Series EMHCD Fund (“EMHCD”), a non-diversified series of Voya Separate Portfolios Trust and Voya Series SC Fund (“SC”), a diversified series of Voya Separate Portfolios Trust.

Voya Funds Trust and Voya Separate Portfolios Trust are each a “Trust” and collectively referred to as the “Trusts.” HYB, EMHCD and SC are each a “Fund” and collectively referred as the “Funds.” The investment objective of the Funds is described in each Fund’s Prospectus.

The Funds do not have a share class designation. All shareholders are allocated the common expenses of a fund and earn income and realized gains/ losses from a fund. Expenses that are specific to a fund are charged directly to that fund. Other operating expenses shared by several funds are generally allocated among those funds based on average net assets.

Voya Investments, LLC (“Voya Investments” or the “Investment Adviser”), an Arizona limited liability company, serves as the Investment Adviser to the Funds. Voya Investment Management Co. LLC (“Voya IM”), a Delaware limited liability company, serves as the sub-adviser to the Funds. Voya Investments Distributor, LLC (“VID”), a Delaware limited liability company, serves as the principal underwriter to the Funds.

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES**

The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Board Codification Topic 946 Financial Services - Investment Companies.

The following significant accounting policies are consistently followed by the Funds in the preparation of their financial statements. Each Fund is considered an investment company under U.S. generally accepted accounting principles (“GAAP”) and follows the accounting and reporting guidance applicable to investment companies.

**A. Security Valuation.** Each Fund is open for business every day the New York Stock Exchange (“NYSE”) opens for regular trading (each such day, a “Business Day”). The net asset value (“NAV”) per share for each class of each Fund is determined each Business Day as of the close of the regular trading session (“Market Close”), as determined by the Consolidated Tape Association (“CTA”), the central distributor of transaction prices for exchange-traded securities (normally 4:00 p.m. Eastern Time unless otherwise designated by the CTA). The NAV per share of each Fund is calculated by taking the value of the Fund’s assets attributable to that class, subtracting the Fund’s liabilities attributable to that class, and dividing by the number of shares of that class that are outstanding. On days when a Fund is closed for business, Fund shares will not be priced and a Fund does not transact purchase and redemption orders. To the extent each Fund’s assets are traded in other markets on days when a Fund does not price its shares, the value of a Fund’s assets will likely change and you will not be able to purchase or redeem shares of a Fund.

Portfolio securities for which market quotations are readily available are valued at market value. Investments in open-end registered investment companies that do not trade on an exchange are valued at the end of day NAV per share. The prospectuses of the open-end registered investment companies in which each Fund may invest explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. Foreign securities’ prices are converted into U.S. dollar amounts using the applicable exchange rates as of Market Close.

When a market quotation for a portfolio security is not readily available or is deemed unreliable (for example when trading has been halted or there are unexpected market closures or other material events that would suggest that the market quotation is unreliable) and for purposes of determining the value of other Fund assets, the asset is priced at its fair value. The Board has designated the Investment Adviser, as the valuation designee, to make fair value determinations in good faith. In determining the fair value of each Fund’s assets, the Investment Adviser, pursuant to its fair valuation policy, may consider inputs from pricing service providers, broker-dealers, or each Fund’s sub-adviser(s). Issuer specific events, transaction price, position size, nature and duration of restrictions on disposition of the security, market trends, bid/ask quotes of brokers and other market data may be reviewed in the course of making a good faith determination of an asset’s fair value. Because trading hours for certain foreign securities end before Market Close, closing market quotations may become unreliable. The prices of foreign securities will generally be adjusted based on inputs from an independent pricing service that are intended to reflect valuation changes through the

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES  
(continued)**

NYSE close. Because of the inherent uncertainties of fair valuation, the values used to determine each Fund's NAV may materially differ from the value received upon actual sale of those investments. Thus, fair valuation may have an unintended dilutive or accretive effect on the value of shareholders' investments in each Fund.

The Funds' financial instruments are valued at the close of the NYSE and are reported at fair value, which GAAP defines as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Various valuation techniques and inputs are used to determine the fair value of financial instruments. GAAP establishes the following fair value hierarchy that categorizes the inputs used to measure fair value:

Level 1 – quoted prices (unadjusted) in active markets for identical financial instruments that the fund can access at the reporting date.

Level 2 – inputs other than Level 1 quoted prices that are observable, either directly or indirectly (including, but not limited to, quoted prices for similar financial instruments in active markets, quoted prices for identical or similar financial instruments in inactive markets, interest rates and yield curves, implied volatilities, and credit spreads).

Level 3 – unobservable inputs (including the fund's own assumptions in determining fair value).

Observable inputs are developed using market data, such as publicly available information about actual events or transactions, and reflect the assumptions that market participants would use to price the financial instrument. Unobservable inputs are those for which market data are not available and are developed using the best information available about the assumptions that market participants would use to price the financial instrument. GAAP requires valuation techniques to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. When multiple inputs are used to derive fair value, the financial instrument is assigned to the level within the fair value hierarchy based on the lowest-level input that is significant to the fair value of the financial instrument. Input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

A table summarizing each Fund's investments under these levels of classification is included within each Portfolio of Investments.

Each investment asset or liability of the Funds is assigned a level at measurement date based on the significance and

source of the inputs to its valuation. Quoted prices in active markets for identical securities are classified as "Level 1," inputs other than quoted prices for an asset or liability that are observable are classified as "Level 2" and significant unobservable inputs, including the Sub-Adviser's or Pricing Committee's judgment about the assumptions that a market participant would use in pricing an asset or liability are classified as "Level 3." The inputs used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Short-term securities of sufficient credit quality are generally considered to be Level 2 securities under applicable accounting rules. The Funds classify each of their investments in the Underlying Funds as Level 1, without consideration as to the classification level of the specific investments held by the Underlying Funds. A table summarizing each Fund's investments under these levels of classification is included within the Portfolio of Investments.

GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in or out of the Level 3 category during the period. A reconciliation of Level 3 investments within the Portfolio of Investments is presented only when a Fund has a significant amount of Level 3 investments.

**B. Securities Transactions and Revenue Recognition.**

Securities transactions are accounted for on the trade date. Realized gains and losses are reported on the basis of identified cost of securities sold. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date, or for certain foreign securities, when the information becomes available to the Funds. Premium amortization and discount accretion are determined by the effective yield method.

**C. Foreign Currency Translation.** The books and records of the Funds are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities — at the exchange rates prevailing at Market Close.
- (2) Purchases and sales of investment securities, income and expenses — at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at Market Close, the Funds do not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES  
(continued)**

realized and unrealized gains or losses from investments. For securities that are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statements of Assets and Liabilities for the estimated tax withholding based on the securities' current market values. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds books, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities. The foregoing risks are even greater with respect to securities of issuers in emerging markets.

**D. Risk Exposures and the Use of Derivative Instruments.** Each Fund's investment objectives permit them to enter into various types of derivatives contracts, including, but not limited to, forward foreign currency exchange contracts, futures, purchased options, written options, and swaps. In doing so, the Funds will employ strategies in differing combinations to permit them to increase or decrease the level of risk, or change the level or types of exposure to risk factors. This may allow each Fund to pursue its objectives more quickly, and efficiently than if they were to make direct purchases or sales of securities capable of affecting a similar response to market or credit factors.

In pursuit of their investment objectives, each Fund may seek to increase or decrease their exposure to the following market or credit risk factors:

**Credit Risk.** The price of a bond or other debt instrument is likely to fall if the issuer's actual or perceived financial health deteriorates, whether because of broad economic or issuer-specific reasons. In certain cases, the issuer could be late in paying interest or principal, or could fail to pay its financial obligations altogether.

**Foreign Exchange Rate Risk.** To the extent that each Fund invests directly in foreign (non-U.S.) currencies or in securities denominated in, or that trade in, foreign (non-U.S.) currencies, it is subject to the risk that those foreign (non-U.S.) currencies will decline in value relative to the U.S. dollar or, in the case of hedging positions, that the U.S. dollar will decline in value relative to the currency being hedged by a Fund through foreign currency exchange transactions.

Currency rates may fluctuate significantly over short periods of time. Currency rates may be affected by changes in market interest rates, intervention (or the failure to intervene) by U.S. or foreign governments, central banks or supranational entities such as the International Monetary Fund, by the imposition of currency controls, or other political or economic developments in the United States or abroad.

**Interest Rate Risk.** A rise in market interest rates generally results in a fall in the value of bonds and other debt instruments; conversely, values generally rise as market interest rates fall. Interest rate risk is generally greater for debt instruments than floating-rate instruments. The higher the credit quality of the instrument, and the longer its maturity or duration, the more sensitive it is to changes in market interest rates. Duration is a measure of sensitivity of the price of a debt instrument to a change in interest rate. The U.S. Federal Reserve Board recently lowered interest rates following a period of consistent rate increases. Declining market interest rates increase the likelihood that debt instruments will be pre-paid. Rising market interest rates have unpredictable effects on the markets and may expose debt and related markets to heightened volatility. To the extent that a mutual fund invests in debt instruments, an increase in market interest rates may lead to increased redemptions and increased portfolio turnover, which could reduce liquidity for certain investments, adversely affect values, and increase costs. Increased redemptions may cause a mutual fund to liquidate portfolio positions when it may not be advantageous to do so and may lower returns. If dealer capacity in debt markets is insufficient for market conditions, it may further inhibit liquidity and increase volatility in debt markets. Fiscal, economic, monetary, or other governmental policies or measures have in the past, and may in the future, cause or exacerbate risks associated with interest rates, including changes in interest rates. Negative or very low interest rates could magnify the risks associated with changes in interest rates. In general, changing interest rates, including rates that fall below zero, could have unpredictable effects on markets and may expose debt and related markets to heightened volatility. Changes to monetary policy by the U.S. Federal Reserve Board or other regulatory actions could expose debt and related markets to heightened volatility, interest

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES**  
**(continued)**

rate sensitivity, and reduced liquidity, which may impact operations and return potential.

**Risks of Investing in Derivatives.** Each Fund's use of derivatives can result in losses due to unanticipated changes in the market or credit risk factors and the overall market. In instances where the Funds are using derivatives to decrease, or hedge, exposures to market or credit risk factors for securities held by a Fund, there are also risks that those derivatives may not perform as expected resulting in losses for the combined or hedged positions. Derivative instruments are subject to a number of risks, including the risk of changes in the market price of the underlying securities, credit risk with respect to the counterparty, risk of loss due to changes in market interest rates and liquidity and volatility risk. The amounts required to purchase certain derivatives may be small relative to the magnitude of exposure assumed by a Fund. Therefore, the purchase of certain derivatives may have an economic leveraging effect on a Fund and exaggerate any increase or decrease in the NAV. Derivatives may not perform as expected, so a Fund may not realize the intended benefits. When used for hedging purposes, the change in value of a derivative may not correlate as expected with the currency, security or other risk being hedged. When used as an alternative or substitute for direct cash investments, the return provided by the derivative may not provide the same return as direct cash investment. In addition, given their complexity, derivatives expose a Fund to the risk of improper valuation.

Generally, derivatives are sophisticated financial instruments whose performance is derived, at least in part, from the performance of an underlying asset or assets. Derivatives include, among other things, swap agreements, options, forwards and futures. Investments in derivatives are generally negotiated OTC with a single counterparty and as a result are subject to credit risks related to the counterparty's ability or willingness to perform its obligations; any deterioration in the counterparty's creditworthiness could adversely affect the value of the derivative. In addition, derivatives and their underlying securities may experience periods of illiquidity which could cause a Fund to hold a security it might otherwise sell, or to sell a security it otherwise might hold at inopportune times or at an unanticipated price. A manager might imperfectly judge the direction of the market. For instance, if a derivative is used as a hedge to offset investment risk in another security, the hedge might not correlate to the market's movements and may have unexpected or undesired results such as a loss or a reduction in gains.

**Counterparty Credit Risk and Credit Related Contingent Features.** Certain derivative positions are

subject to counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Funds. Each Fund's derivative counterparties are financial institutions who are subject to market conditions that may weaken their financial position. The Fund intends to enter into financial transactions with counterparties that they believe to be creditworthy at the time of the transaction. To reduce this risk, the Fund generally enters into master netting arrangements, established within the Fund's International Swap and Derivatives Association, Inc. ("ISDA") Master Agreements ("Master Agreements"). These agreements are with select counterparties and they govern transactions, including certain OTC derivative and forward foreign currency contracts, entered into by the Fund and the counterparty. The Master Agreements maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable Master Agreement.

Each Fund may also enter into collateral agreements with certain counterparties to further mitigate credit risk associated with OTC derivative and forward foreign currency contracts. Subject to established minimum levels, collateral is generally determined based on the net aggregate unrealized gain or loss on contracts with a certain counterparty. Collateral pledged to or from the Funds is held in a segregated account by a third-party agent and can be in the form of cash or debt securities issued by the U.S. government or related agencies.

Each Fund's Master Agreements with derivative counterparties have credit related contingent features that if triggered would allow their derivatives counterparties to close out and demand payment or additional collateral to cover their exposure from the Fund. Credit related contingent features are established between a Fund and its derivatives counterparties to reduce the risk that the Fund will not fulfill their payment obligations to their counterparties. These triggering features include, but are not limited to, a percentage decrease in a Fund's net assets and or a percentage decrease in the Fund's NAV, which could cause the Fund to accelerate payment of any net liability owed to the counterparty. The contingent features are established within each Fund's Master Agreements.

There were no open OTC derivatives for any Fund at March 31, 2025.

**E. Forward Foreign Currency Transactions and Futures Contracts.** Each Fund may enter into foreign currency exchange transactions to convert to and from different foreign currencies and to and from the U.S. dollar in connection with the planned purchases or sales of securities. The Fund

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (CONTINUED)

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES**  
(continued)

either enters into these transactions on a spot basis at the spot rate prevailing in the foreign currency exchange market or use forward foreign currency contracts to purchase or sell foreign currencies. When the contract is fulfilled or closed, gains or losses are realized. Until then, the gain or loss is included in unrealized appreciation or depreciation. Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their forward contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar.

Each Fund may enter into futures contracts involving foreign currency, interest rates, securities and securities indices. The Funds intend to limit its use of futures contracts and futures options to “bona fide hedging” transactions, as such term is defined in applicable regulations, interpretations and practice. A futures contract obligates the seller of the contract to deliver and the purchaser of the contract to take delivery of the type of foreign currency, financial instrument or security called for in the contract at a specified future time for a specified price.

Upon entering into a futures contract, each Fund is required to deposit either cash or securities (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by a Fund each day. The variation margin payments are equal to the daily changes in the contract value and are recorded as unrealized gains and losses and, if any, shown as variation margin receivable or payable on futures contracts on the Statement of Assets and Liabilities. Open futures contracts, if any, are reported on a table within each Fund’s Portfolio of Investments. Securities held in collateralized accounts to cover initial margin requirements, if any, on open futures contracts are footnoted in the Portfolio of Investments. Cash collateral held by the broker to cover initial margin requirements on open futures contracts are noted in each Fund’s Statement of Assets and Liabilities. The net change in unrealized appreciation and depreciation is reported in each Fund’s Statement of Operations. Realized gains (losses) are reported in the Fund’s Statement of Operations at the closing or expiration of futures contracts.

Futures contracts are exposed to the market risk factor of the underlying financial instrument. During the year ended March 31, 2025, EMHCD and SC had purchased and sold futures contracts on various bonds and notes to gain exposure to different parts of the yield curve while maintaining overall duration. Additional associated risks of entering into futures contracts include the possibility that there may be an illiquid market where a Fund is unable to liquidate the contract or enter into an offsetting position

and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Fund’s securities. With futures, there is minimal counterparty credit risk to a Fund since futures are exchange traded and the exchange’s clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

During the year ended March 31, 2025, the Funds had average notional values on futures contracts purchased and sold as disclosed below:

	<u>Purchased</u>	<u>Sold</u>
EMHCD	\$ 16,708,338	\$ 14,169,206
SC	47,413,351	24,523,266

Please refer to the tables within the Portfolio of Investments for open futures contracts at March 31, 2025. HYB did not enter into any futures contracts during the year ended March 31, 2025.

**F. Distributions to Shareholders.** Each Fund records distributions to the shareholders on the ex-dividend date. The Funds distribute capital gains, if any, annually. The Funds declare dividends daily and pay dividends monthly. The characteristics of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from GAAP for investment companies.

**G. Federal Income Taxes.** It is the policy of each Fund to comply with the requirements of subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized capital gains to its shareholders. Therefore, a federal income tax or excise tax provision is not required. Management has considered the sustainability of a Fund’s tax positions taken on federal income tax returns for all open tax years in making this determination. No capital gain distributions shall be made until the capital loss carryforwards have been fully utilized.

Each Fund may utilize equalization accounting for tax purposes, whereby a portion of redemption payments are treated as distributions of income or gain.

**H. Use of Estimates.** The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (CONTINUED)

**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES**  
(continued)

I. **Restricted Securities.** Each Fund may invest in restricted securities which include those sold under Rule 144A of the Securities Act of 1933, as amended (“1933 Act”) (“Rule 144A”) or securities offered pursuant to Section 4(a) (2) of the 1933 Act, and/or are subject to legal or contractual restrictions on resale and may not be publicly sold without registration under the 1933 Act. Restricted securities are fair valued using market quotations when readily available. In the absence of market quotations, the securities are valued based upon their fair value determined in good faith under procedures approved by the Board.

Securities that are legally restricted as to resale (such as those issued in private placements), including securities governed by Rule 144A and Regulation S under the 1933 Act, and securities that are offered in reliance on Section 4(a)(2) of the 1933 Act are referred to as “restricted securities.” Restricted securities may be sold in private placement transactions between issuers and their purchasers and may be neither listed on an exchange nor traded in other established markets. Due to the absence of a public trading market, restricted securities may be more volatile, less liquid and more difficult to value than publicly traded securities. The price realized from the sale of these securities could be less than the amount originally paid or less than their fair value if they are resold in privately negotiated transactions. In addition, these securities may not be subject to disclosure and other investment protection requirements that are afforded to publicly traded securities. Certain investments may include investment in smaller, less seasoned issuers, which may involve greater risk.

J. **Indemnifications.** In the normal course of business, the Trusts may enter into contracts that provide certain indemnifications. The Trusts’ maximum exposure under these arrangements is dependent on future claims that may be made against the Funds and, therefore, cannot be estimated; however, based on experience, management considers risk of loss from such claims remote.

**NOTE 3 — INVESTMENT TRANSACTIONS**

For the year ended March 31, 2025, the cost of purchases and the proceeds from the sales of securities excluding short-term and U.S. government securities, were as follows:

	<u>Purchases</u>	<u>Sales</u>
EMHCD	\$ 119,188,842	\$ 132,736,513
HYB	163,753,892	122,441,268
SC	50,737,918	65,667,884

U.S. government securities not included above were as follows:

	<u>Purchases</u>	<u>Sales</u>
HYB	\$ 1,653,351	\$ —
SC	1,650,750	1,729,846

**NOTE 4 — INVESTMENT MANAGEMENT FEES**

Each Fund has entered into an investment management agreement (“Management Agreement”) with the Investment Adviser. The Investment Adviser has overall responsibility for the management of the Funds. The Investment Adviser oversees all investment advisory and portfolio management services for the Funds and assists in managing and supervising all aspects of the general day-to-day business activities and operations of the Funds, including custodial, transfer agency, dividend disbursing, accounting, auditing, compliance and related services.

There is no management fee charged per the Management Agreement for EMHCD, HYB, and SC.

The Investment Adviser has entered into a sub-advisory agreement with Voya IM with respect to each Fund. Voya IM provides investment advice for the Funds and is paid by the Investment Adviser based on the average daily net assets of each respective Fund. Subject to such policies as the Board or the Investment Adviser may determine, Voya IM manages each Fund’s assets in accordance with each Fund’s investment objectives, policies, and limitations.

**NOTE 5 — OTHER TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES**

At March 31, 2025, the following direct or indirect, wholly-owned subsidiaries of Voya Financial, Inc. or affiliated investment companies owned more than 5% of the following Funds:

<u>Subsidiary/ Affiliated Investment Company</u>	<u>Fund</u>	<u>Percentage</u>
Voya Balanced Income Portfolio	EMHCD	9.17%
	HYB	17.44
	SC	15.65
Voya Intermediate Bond Portfolio	EMHCD	68.34
	HYB	16.21
	SC	27.25
Voya Investment Management Co. LLC	EMHCD	16.96
	HYB	22.46
	SC	38.77
Voya Retirement Insurance and Annuity Company	HYB	31.48

The Funds have adopted a deferred compensation plan (the “DC Plan”), which allows eligible independent trustees, as described in the DC Plan, to defer the receipt of all or a portion of the trustees’ fees that they are entitled to receive from

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (CONTINUED)

**NOTE 5 — OTHER TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES (continued)**

the Funds. For purposes of determining the amount owed to the trustee under the DC Plan, the amounts deferred are invested in shares of the funds selected by the trustee (the “Notional Funds”). When the Funds purchase shares of the Notional Funds, which are all advised by Voya Investments, in amounts equal to the trustees’ deferred fees, this results in a Fund asset equal to the deferred compensation liability. Such assets, if applicable, are included as a component of “Other assets” on the accompanying Statements of Assets and Liabilities. Deferral of trustees’ fees under the DC Plan will not affect net assets of the Funds, and will not materially affect the Funds’ assets, liabilities or net investment income per share. Amounts will be deferred until distributed in accordance with the DC Plan.

The Funds may pay per account fees to affiliates of Voya Investments for recordkeeping services provided on certain assets. For the year ended March 31, 2025, the Funds did not pay any amounts for affiliated recordkeeping services.

**NOTE 6 — EXPENSE LIMITATION AGREEMENTS**

Pursuant to a written expense limitation agreement (“Expense Limitation Agreement”) between the Investment Adviser and the Trusts, on behalf of each Fund, the Investment Adviser has agreed to limit expenses of each Fund, excluding interest, taxes, investment-related costs, leverage expenses, extraordinary expenses and acquired fund fees and expenses to the levels listed below:

<b>Fund</b>	<b>Expense Limit</b>
EMHCD	0.15%
HYB	0.15%
SC	0.05%

The Investment Adviser may at a later date recoup from the Fund for fees waived and/or other expenses reimbursed by the Investment Adviser during the previous 36 months, but only if, after such recoupment, the Fund’s expense ratio does not exceed the percentage described above. Waived and reimbursed fees net of any recoupment by the Investment Adviser of such waived and reimbursed fees are reflected on the accompanying Statements of Operations. Amounts payable by the Investment Adviser are reflected on the accompanying Statements of Assets and Liabilities.

As of March 31, 2025, the amounts of waived and/or reimbursed fees that are subject to possible recoupment by the Investment Adviser and the related expiration dates are as follows:

	<b>March 31,</b>			<b>Total</b>
	<b>2026</b>	<b>2027</b>	<b>2028</b>	
SC	\$ 3,164	\$ 67,007	\$ 107,814	\$ 177,985

The Expense Limitation Agreement is contractual through August 1, 2025 and shall renew automatically for one-year terms. Termination or modification of this obligation requires approval by the Board.

**NOTE 7 — LINE OF CREDIT**

Effective on June 10, 2024, the Funds, in addition to certain other funds managed by the Investment Adviser, each Fund entered into a 364-day unsecured committed revolving line of credit agreement (the “Credit Agreement”) with The Bank of New York Mellon (“BNY”) for an aggregate amount of \$400,000,000 through June 9, 2025. The proceeds may be used only to finance temporarily: (1) the purchase or sale of investment securities; or (2) the repurchase or redemption of shares of the Fund or certain other funds managed by the Investment Adviser. The funds to which the line of credit is available pay a commitment fee equal to 0.15% per annum on the daily unused portion of the committed line amount payable quarterly in arrears. Prior to June 10, 2024, the predecessor line of credit was for an aggregate amount of \$400,000,000 and the funds to which the line of credit was available paid a commitment fee equal to 0.15% per annum on the daily unused portion of the committed line amount through June 10, 2024.

Borrowings under the Credit Agreement accrue interest at the federal funds rate plus a specified margin. Repayments generally must be made within 60 days after the date of a revolving credit advance.

The Funds did not utilize the line of credit during the year ended March 31, 2025.

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (CONTINUED)

**NOTE 9 — SECURITIES LENDING**

Under a Master Securities Lending Agreement (the "Agreement") with BNY, the Funds can lend their securities to approved brokers, dealers and other financial institutions. Loans are collateralized by cash and U.S. government securities. The collateral is equal to at least 105% of the market value of non-U.S. securities loaned and 102% of the market value of U.S. securities loaned. The market value of the loaned securities is determined at the close of business of the Funds at their last sale price or official closing price on the principal exchange or system on which they are traded and any additional collateral is delivered to the Fund on the next business day. The cash collateral received is invested in approved investments as defined in the Securities Lending Agreement with BNY (the "Agreement"). The Funds bear the risk of loss with respect to the investment of collateral with the following exception: BNY provides the Funds indemnification from loss with respect to the investment of collateral to the extent the cash collateral is invested in overnight repurchase agreements.

Cash collateral received in connection with securities lending is invested in cash equivalents, money market funds, repurchase agreements with maturities of not more than 99 days that are collateralized with U.S. Government securities, or certain short-term investments that have a remaining maturity of 190 days or less ("Permitted Investments"). Short-term investments include: securities, units, shares or other participations in short-term investment funds, pools or trusts; commercial paper, notes, bonds or other debt obligations, certificates of deposit, time deposits and other bank obligations and asset-backed commercial paper backed by diversified receivables and repurchase-backed programs. Permitted Investments are subject to certain guidelines established by the Adviser regarding liquidity, diversification, credit quality and average credit life/duration requirements. The securities purchased with cash collateral received are reflected in the Portfolio of Investments under Short-Term Investments.

Generally, in the event of counterparty default, the Funds have the right to use the collateral to offset losses incurred. The Agreement contains certain guarantees by BNY in the event of counterparty default and/or a borrower's failure to return a loaned security; however, there would be a potential loss to the Funds in the event the Funds are delayed or prevented from exercising its right to dispose of the collateral. Engaging in securities lending could have a leveraging effect, which may intensify the credit, market and other risks associated with investing in a fund.

The following tables represent a summary of each respective Fund's securities lending agreements by counterparty which are subject to offset under the Agreement as of March 31, 2025:

**EMHCD**

Counterparty	Securities Loaned at Value	Cash Collateral Received <sup>(1)</sup>	Net Amount
BofA Securities Inc	\$ 111,787	\$ (111,787)	\$ —
Jefferies International Ltd	229,151	(229,151)	—
Jefferies LLC	1,883,896	(1,883,896)	—
JP Morgan Securities Plc.	1,431,291	(1,431,291)	—
Merrill Lynch International	573,270	(573,270)	—
Total	<u>\$ 4,229,395</u>	<u>\$ (4,229,395)</u>	<u>\$ —</u>

(1) Cash collateral with a fair value of \$4,366,529 has been pledged by the counterparty and received in connection with the above securities lending transactions. Excess cash collateral received from the individual counterparty is not shown for financial reporting purposes.

**HYB**

Counterparty	Securities Loaned at Value	Cash Collateral Received <sup>(1)</sup>	Net Amount

Truist Securities INC	\$ 64,872	\$ (64,872)	\$ —
Wells Fargo Bank NA	562,494	(562,494)	—
Total	<u>\$ 8,628,083</u>	<u>\$ (8,628,083)</u>	<u>\$ —</u>

(1) Cash collateral with a fair value of \$8,880,855 has been pledged by the counterparty and received in connection with the above securities lending transactions. Excess cash collateral received from the individual counterparty is not shown for financial reporting purposes.

**NOTE 10 — FEDERAL INCOME TAXES**

The amount of distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of futures contracts, paydowns, perpetual preferred securities, and wash sale deferrals.

Dividends paid by the Funds from net investment income and distributions of net realized short-term capital gains are, for U.S. federal income tax purposes, taxable as ordinary income to shareholders.

The tax composition of dividends and distributions to shareholders was as follows:

	<b>Year Ended March 31, 2025</b>		<b>Year Ended March 31, 2024</b>	
	<b>Ordinary Income</b>	<b>Long-term Capital Gains</b>	<b>Ordinary Income</b>	<b>Long-term Capital Gains</b>
EMHCD	\$ 9,810,009	\$ 2,868,898	\$ 9,795,774	\$ 440,410
HYB	10,876,527	—	9,938,067	—
SC	12,613,918	—	11,312,104	657,342

The tax-basis components of distributable earnings and the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of March 31, 2025, were:

	<b>Undistributed Ordinary Income</b>	<b>Undistributed Long-term Capital Gains</b>	<b>Unrealized Appreciation/ (Depreciation)</b>	<b>Capital Loss Carryforwards</b>		<b>Other</b>	<b>Total Distributable Earnings/(Loss)</b>
				<b>Amount</b>	<b>Character</b>		
EMHCD	\$ —	\$ 711,097	\$ 2,669,997	\$ —	—	\$ (46,421)	\$ 3,334,673
HYB	19,036	666,786	1,061,218	—	—	—	1,747,040
SC	1,253,328	—	11,579,578	(62,831)	Short-term	(286,440)	12,340,601
				(143,034)	Long-term		
				<u>\$ (205,865)</u>			

The Funds' major tax jurisdictions are U.S. federal and Arizona state.

As of March 31, 2025, no provision for income tax is required in the Funds' financial statements as a result of tax positions taken on federal and state income tax returns for open tax years. The Funds' federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue. Generally, the preceding four tax years remain subject to examination by these jurisdictions.

**NOTE 11 — MARKET DISRUPTION AND GEOPOLITICAL RISK**

A Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. Due to the increasing interdependence among global economies and markets, conditions in one country, market, or region might adversely impact markets, issuers and/or foreign exchange rates in other countries, including the United States. Wars, terrorism, global health crises and pandemics, tariffs and other restrictions on trade or economic sanctions, rapid technological developments (such as artificial intelligence technologies), and other geopolitical events that have led, and may continue to lead, to increased market volatility and may have adverse short- or long-term effects on U.S. and global economies and markets, generally. For example, the COVID-19 pandemic resulted in significant market volatility, exchange suspensions and closures, declines in global financial markets, higher default rates, supply chain disruptions, and a substantial economic downturn in economies throughout the world. The economic impacts of COVID-19 have created a unique challenge for real estate markets. Many businesses have either partially or fully transitioned to a remote-working environment and this transition may negatively impact the occupancy rates of commercial real estate over time. Natural and environmental disasters and systemic market dislocations are also highly disruptive to economies and markets. In addition, military action by Russia in Ukraine has, and may continue to, adversely affect global energy and financial markets and therefore could affect the value of investments, including beyond the direct exposure to Russian issuers or nearby geographic regions. Furthermore, a prolonged conflict between Hamas and Israel, and the potential expansion of the conflict in the surrounding areas and the involvement of other nations in such conflict, such as the Houthi movement's attacks on marine vessels in the Red Sea, could further destabilize the Middle East region and introduce new uncertainties in global markets, including the oil and natural gas markets. The extent and duration of the military action, sanctions, and resulting market disruptions are impossible to predict and could be substantial. A number of U.S. domestic banks and foreign (non-U.S.) banks have experienced financial difficulties and, in some cases, failures. There can be no certainty that the actions taken by regulators to limit the effect of those financial difficulties and failures on other banks or other financial institutions or on the U.S. or foreign (non-U.S.) economies generally will be successful. It is possible that more banks or other financial institutions will experience financial difficulties or fail, which may affect adversely other U.S. or foreign (non-U.S.) financial institutions and economies. These events as well as other changes in foreign (non-U.S.) and domestic economic, social, and political conditions also could adversely affect

individual issuers or related groups of issuers, securities markets, interest rates, credit ratings, inflation, investor sentiment, and other factors affecting the value of a Fund's investments. Any of these occurrences could disrupt the operations of a Fund and of a Fund's service providers.

**NOTE 12 — SEGMENT REPORTING**

In November 2023, the FASB issued Accounting Standards Update ("ASU"), ASU 2023-07, Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures, which aims to improve reportable segment disclosure requirements, primarily through enhanced disclosures about segment expenses. Adoption of ASU 2023-07, impacts financial statement disclosure only and did not affect the Funds financial position or operating results.

Topic 280 defines an operating segment as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the chief operating decision maker ("CODM") to assess performance and make resource allocation decisions. The Funds have one operating segment that derives its income from earnings on its investments. The Product Review Committee (the "Committee") of the Investment Adviser and its affiliates is deemed to be the CODM. The Committee is comprised of executive leaders and it reviews the operating results of the Funds holistically. The CODM considers changes in net assets from operations, expense ratios, total returns and fund composition to make resource allocation decisions. Detailed financial information regarding the Funds is disclosed within these financial statements with total assets and liabilities disclosed on the Statement of Assets and Liabilities, investments held on the Portfolio of Investments, results of operations on the Statement of Operations and other information about the Funds performance, including total return, portfolio turnover and expense ratios within the Financial Highlights.

**NOTE 13 — SUBSEQUENT EVENTS**

Dividends: Subsequent to March 31, 2025, the Funds declared dividends from net investment income of:

	Per Share Amount	Payable Date	Record Date
EMHCD	\$0.0585	May 1, 2025	Daily
HYB	\$0.0566	May 1, 2025	Daily
SC	\$0.0520	May 1, 2025	Daily

The Funds have evaluated events occurring after the Statements of Assets and Liabilities date through the date that the financial statements were issued ("subsequent events") to determine whether any subsequent events necessitated adjustment to or disclosure in the financial

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (CONTINUED)

**Fair Value Measurements<sup>^</sup>**

The following is a summary of the fair valuations according to the inputs used as of March 31, 2025 in valuing the assets and liabilities:

	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at March 31, 2025
<b>Asset Table</b>				
<b>Investments, at fair value</b>				
Sovereign Bonds	\$ —	\$ 68,744,692	\$ —	\$ 68,744,692
Corporate Bonds/Notes	—	37,351,694	—	37,351,694
Short-Term Investments	1,409,000	8,365,636	—	9,774,636
Total Investments, at fair value	<u>\$ 1,409,000</u>	<u>\$ 114,462,022</u>	<u>\$ —</u>	<u>\$ 115,871,022</u>
<b>Other Financial Instruments<sup>+</sup></b>				
Futures	88,992	—	—	88,992
Total Assets	<u>\$ 1,497,992</u>	<u>\$ 114,462,022</u>	<u>\$ —</u>	<u>\$ 115,960,014</u>
<b>Liabilities Table</b>				
<b>Other Financial Instruments<sup>+</sup></b>				
Futures	\$ (143,872)	\$ —	\$ —	\$ (143,872)
Total Liabilities	<u>\$ (143,872)</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (143,872)</u>

<sup>^</sup> See Note 2, "Significant Accounting Policies" in the Notes to Financial Statements for additional information.

<sup>+</sup> Other Financial Instruments may include open forward foreign currency contracts, futures, centrally cleared swaps, OTC swaps and written options. Forward foreign currency contracts, futures and centrally cleared swaps are fair valued at the unrealized appreciation (depreciation) on the instrument. OTC swaps and written options are valued at the fair value of the instrument.

At March 31, 2025, the following futures contracts were outstanding for Voya VACS Series EMHCD Fund:

Description	Number of Contracts	Expiration Date	Notional Amount	Unrealized Appreciation/ (Depreciation)
<b>Long Contracts:</b>				
U.S. Treasury 2-Year Note	26	06/30/25	\$ 5,386,469	\$ 24,559
U.S. Treasury 5-Year Note	44	06/30/25	4,758,875	52,154
U.S. Treasury Long Bond	8	06/18/25	938,250	5,506
U.S. Treasury Ultra Long Bond	25	06/18/25	3,056,250	6,773
			<u>\$ 14,139,844</u>	<u>\$ 88,992</u>
<b>Short Contracts:</b>				
U.S. Treasury 10-Year Note	(24)	06/18/25	(2,669,250)	(32,165)
U.S. Treasury Ultra 10-Year Note	(70)	06/18/25	(7,988,750)	(111,707)
			<u>\$ (10,658,000)</u>	<u>\$ (143,872)</u>

**A summary of derivative instruments by primary risk exposure is outlined in the following tables.**

The fair value of derivative instruments as of March 31, 2025 was as follows:

Derivatives not accounted for as hedging instruments	Location on Statement of Assets and Liabilities	Fair Value
<b>Asset Derivatives</b>		
Interest rate contracts	Variation margin receivable on futures contracts <sup>*</sup>	\$ 88,992
<b>Total Asset Derivatives</b>		<u>\$ 88,992</u>
<b>Liability Derivatives</b>		
Interest rate contracts	Variation margin payable on futures contracts <sup>*</sup>	\$ 143,872
<b>Total Liability Derivatives</b>		<u>\$ 143,872</u>

<sup>\*</sup> The fair value presented above represents the cumulative unrealized appreciation (depreciation) on futures contracts as reported in the tables within the Portfolio of Investments. In the Statement of Assets and Liabilities, only current day's unsettled variation margin is reported in receivables or payables on futures contracts and the net cumulative unrealized appreciation (depreciation) is included in total distributable earnings (loss).

See Accompanying Notes to Financial Statements

The effect of derivative instruments on the Fund's Statement of Operations for the year ended March 31, 2025 was as follows:

**Amount of Realized Gain or (Loss) on Derivatives Recognized in Income**

**Derivatives not accounted for as hedging instruments**

Interest rate contracts

**Total**

**Futures**

\$ (233,776)

\$ (233,776)

**Change in Unrealized Appreciation or (Depreciation) on Derivatives Recognized in Income**

**Derivatives not accounted for as hedging instruments**

Interest rate contracts

**Total**

**Futures**

\$ (56,011)

\$ (56,011)

At March 31, 2025, the aggregate cost of securities and other investments and the composition of unrealized appreciation and depreciation of securities and other investments on a tax basis were:

Cost for U.S. federal income tax purposes was \$113,146,587.

Net unrealized appreciation consisted of:

Gross Unrealized Appreciation	\$ 4,495,131
Gross Unrealized Depreciation	(1,825,134)
Net Unrealized Appreciation	<u>\$ 2,669,997</u>

- † Unless otherwise indicated, principal amount is shown in USD.
- (1) Securities with purchases pursuant to Rule 144A or section 4(a)(2), under the Securities Act of 1933 and may not be resold subject to that rule except to qualified institutional buyers.
- (2) Security, or a portion of the security, is on loan.
- (3) All or a portion of this security is payment-in-kind ("PIK") which may pay interest or additional principal at the issuer's discretion. Rates shown are the current rate and possible payment rates.
- (4) Contract rates that are not disclosed do not take effect until settlement date and have yet to be determined.
- (5) All or a portion of the security represents securities purchased with cash collateral received for securities on loan.
- (6) Rate shown is the 7-day yield as of March 31, 2025.

Reference Rate Abbreviations:

TSFR1M	1-month CME Term Secured Overnight Financing Rate
TSFR3M	3-month CME Term Secured Overnight Financing Rate

**Fair Value Measurements<sup>^</sup>**

The following is a summary of the fair valuations according to the inputs used as of March 31, 2025 in valuing the assets and liabilities:

	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at March 31, 2025
<b>Asset Table</b>				
<b>Investments, at fair value</b>				
Corporate Bonds/Notes	\$ —	\$ 156,592,130	\$ —	\$ 156,592,130
Bank Loans	—	8,963,184	—	8,963,184
Short-Term Investments	747,000	12,478,247	—	13,225,247
Total Investments, at fair value	<u>\$ 747,000</u>	<u>\$ 178,033,561</u>	<u>\$ —</u>	<u>\$ 178,780,561</u>

<sup>^</sup> See Note 2, "Significant Accounting Policies" in the Notes to Financial Statements for additional information.

At March 31, 2025, the aggregate cost of securities and other investments for federal income tax purposes was the same as for financial statement purposes. The composition of unrealized appreciation and depreciation of securities and other investments was:

Cost for U.S. federal income tax purposes was \$177,719,343.

Net unrealized appreciation consisted of:

Gross Unrealized Appreciation	\$ 2,674,764
Gross Unrealized Depreciation	(1,613,546)
Net Unrealized Appreciation	<u>\$ 1,061,218</u>

**Fair Value Measurements<sup>^</sup>**

The following is a summary of the fair valuations according to the inputs used as of March 31, 2025 in valuing the assets and liabilities:

	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at March 31, 2025
<b>Asset Table</b>				
<b>Investments, at fair value</b>				
Commercial Mortgage-Backed Securities	\$ —	\$ 70,474,293	\$ —	\$ 70,474,293
Collateralized Mortgage Obligations	—	67,686,869	—	67,686,869
Asset-Backed Securities	—	45,002,572	—	45,002,572
Short-Term Investments	303,000	23,998,675	—	24,301,675
Total Investments, at fair value	<u>\$ 303,000</u>	<u>\$ 207,162,409</u>	<u>\$ —</u>	<u>\$ 207,465,409</u>
<b>Other Financial Instruments+</b>				
Futures	450,307	—	—	450,307
Total Assets	<u>\$ 753,307</u>	<u>\$ 207,162,409</u>	<u>\$ —</u>	<u>\$ 207,915,716</u>
<b>Liabilities Table</b>				
<b>Other Financial Instruments+</b>				
Futures	\$ (99,404)	\$ —	\$ —	\$ (99,404)
Total Liabilities	<u>\$ (99,404)</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (99,404)</u>

<sup>^</sup> See Note 2, "Significant Accounting Policies" in the Notes to Financial Statements for additional information.

<sup>+</sup> Other Financial Instruments may include open forward foreign currency contracts, futures, centrally cleared swaps, OTC swaps and written options. Forward foreign currency contracts, futures and centrally cleared swaps are fair valued at the unrealized appreciation (depreciation) on the instrument. OTC swaps and written options are valued at the fair value of the instrument.

At March 31, 2025, the following futures contracts were outstanding for Voya VACS Series SC Fund:

Description	Number of Contracts	Expiration Date	Notional Amount	Unrealized Appreciation/ (Depreciation)
<b>Long Contracts:</b>				
U.S. Treasury 2-Year Note	355	06/30/25	\$ 73,546,015	\$ 351,545
U.S. Treasury 5-Year Note	32	06/30/25	3,461,000	13,553
U.S. Treasury 10-Year Note	36	06/18/25	4,003,875	43,402
U.S. Treasury Ultra Long Bond	27	06/18/25	3,300,750	41,807
			<u>\$ 84,311,640</u>	<u>\$ 450,307</u>
<b>Short Contracts:</b>				
U.S. Treasury Long Bond	(5)	06/18/25	(586,406)	(6,847)
U.S. Treasury Ultra 10-Year Note	(58)	06/18/25	(6,619,250)	(92,557)
			<u>\$ (7,205,656)</u>	<u>\$ (99,404)</u>

**A summary of derivative instruments by primary risk exposure is outlined in the following tables.**

The fair value of derivative instruments as of March 31, 2025 was as follows:

Derivatives not accounted for as hedging instruments	Location on Statement of Assets and Liabilities	Fair Value
<b>Asset Derivatives</b>		
Interest rate contracts	Variation margin receivable on futures contracts <sup>*</sup>	\$ 450,307
<b>Total Asset Derivatives</b>		<u>\$ 450,307</u>
<b>Liability Derivatives</b>		
Interest rate contracts	Variation margin payable on futures contracts <sup>*</sup>	\$ 99,404
<b>Total Liability Derivatives</b>		<u>\$ 99,404</u>

See Accompanying Notes to Financial Statements

\* The fair value presented above represents the cumulative unrealized appreciation (depreciation) on futures contracts as reported in the tables within the Portfolio of Investments. In the Statement of Assets and Liabilities, only current day's unsettled variation margin is reported in receivables or payables on futures contracts and the net cumulative unrealized appreciation (depreciation) is included in total distributable earnings (loss).

The effect of derivative instruments on the Fund's Statement of Operations for the year ended March 31, 2025 was as follows:

**Amount of Realized Gain or (Loss) on Derivatives Recognized in Income**

<b><u>Derivatives not accounted for as hedging instruments</u></b>	<b><u>Futures</u></b>
Interest rate contracts	\$ 1,099,242
<b>Total</b>	<b>\$ 1,099,242</b>

**Change in Unrealized Appreciation or (Depreciation) on Derivatives Recognized in Income**

<b><u>Derivatives not accounted for as hedging instruments</u></b>	<b><u>Futures</u></b>
Interest rate contracts	\$ 269,242
<b>Total</b>	<b>\$ 269,242</b>

At March 31, 2025, the aggregate cost of securities and other investments and the composition of unrealized appreciation and depreciation of securities and other investments on a tax basis were:

Cost for U.S. federal income tax purposes was \$196,236,734.

Net unrealized appreciation consisted of:

Gross Unrealized Appreciation	\$ 11,955,707
Gross Unrealized Depreciation	(376,129)
Net Unrealized Appreciation	<u>\$ 11,579,578</u>

[This Page Intentionally Left Blank]

[This Page Intentionally Left Blank]

## TAX INFORMATION (UNAUDITED)

---

Dividends and distributions paid during the year ended March 31, 2025, were as follows:

<b>Fund Name</b>	<b>Type</b>	<b>Per Share Amount</b>
Voya VACS Series EMHCD Fund	NII	\$0.7166
	STCG	\$0.1795
	LTCG	\$0.2756
Voya VACS Series HYB Fund	NII	\$0.7622
Voya VACS Series SC Fund	NII	\$0.6427

NII - Net investment income  
 STCG - Short-term capital gain  
 LTCG - Long-term capital gain

Pursuant to Internal Revenue Code Section 871(k)(1), the Funds designate the following percentages of net investment income distributions as interest-related dividends:

Voya VACS Series EMHCD Fund	10.59%
Voya VACS Series HYB Fund	83.82%
Voya VACS Series SC Fund	87.03%

The Funds designate the following amounts of long-term capital gain distributions as 20% rate long-term capital gain dividends under Internal Revenue Code Section 852(b)(3)(C):

Voya VACS Series EMHCD Fund	\$ 2,868,898
-----------------------------	--------------

Above figures may differ from those cited elsewhere in this report due to differences in the calculation of income and gains under U.S. generally accepted accounting principles (book) purposes and Internal Revenue Service (tax) purposes.

Shareholders are strongly advised to consult their own tax advisers with respect to the tax consequences of their investments in the Funds. In January, shareholders, excluding corporate shareholders, receive an IRS 1099-DIV regarding the federal tax status of the dividends and distributions they received in the calendar year.

## ADVISORY AND SUB-ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED)

---

### **BOARD CONSIDERATION AND APPROVAL OF INVESTMENT MANAGEMENT CONTRACTS AND SUB-ADVISORY CONTRACTS**

At a meeting held on November 14, 2024, the Board of Trustees (“Board”) of Voya Funds Trust and Voya Separate Portfolios Trust (collectively, the “Trusts”), including a majority of the Board members who have no direct or indirect interest in the investment management and sub-advisory contracts, and who are not “interested persons” of Voya VACS Series EMHCD Fund (the “EMHCD Fund”), Voya VACS Series SC Fund (the “SC Fund”), and Voya VACS Series HYB Fund (the “HYB Fund,” and together with the EMHCD Fund and the SC Fund, the “Funds”), each a series of the Trusts, as such term is defined under the Investment Company Act of 1940, as amended (the “Independent Trustees”), considered and approved the renewal of the investment management contracts (the “Management Contracts”) between Voya Investments, LLC (the “Manager”) and the Trusts, on behalf of the Funds, and the sub-advisory contracts (the “Sub-Advisory Contracts,” and together with the Management Contracts, the “Contracts”) with Voya Investment Management Co. LLC, the sub-adviser to each Fund (the “Sub-Adviser”), for an additional one-year period ending November 30, 2025.

In addition to the Board meeting on November 14, 2024, the Independent Trustees also held meetings outside the presence of representatives of the Manager and Sub-Adviser (collectively, such persons are referred to herein as “management”) on October 9, 2024 and November 12, 2024. At those meetings, the Board members reviewed and considered materials related to the proposed continuance of the Contracts that they had requested and believed to be relevant to the renewal of the Contracts in light of their own business judgment and the legal advice furnished to them by K&L Gates LLP, their independent legal counsel. The Board also considered information furnished to it throughout the year at meetings of the Board and its committees, including information regarding performance, expenses, and other relevant matters. While the Board considered the renewal of the management contracts and sub-advisory contracts for all of the applicable investment companies in the Voya family of funds at the same meetings, the Board considered each Voya fund’s investment management and sub-advisory relationships separately.

The Board has established a Contracts Committee and two Investment Review Committees (the “IRCs”), each of which includes only Independent Trustees as members. The Contracts Committee meets several times throughout the year to provide oversight with respect to the management and sub-advisory contracts approval and renewal process for the Voya funds, among other functions, and each IRC meets several times throughout the year with respect to

each Voya fund (assigned to that IRC) to provide oversight regarding the investment performance of the sub-advisers, as well as the Manager’s role in monitoring the sub-advisers.

The Contracts Committee oversees, and annually recommends Board approval of updates to, a methodology guide for the Voya funds (“Methodology Guide”), which sets out a framework pursuant to which the Independent Trustees request, and management provides, certain information that the Independent Trustees deem to be important or potentially relevant to the contracts renewal process for the Voya funds. The Independent Trustees retain the services of an independent consultant with experience in the mutual fund industry to assist the Contracts Committee in developing and recommending to the Board: (1) a selected peer group of investment companies for each Fund (“Selected Peer Group”) based on that Fund’s particular attributes; and (2) updates to the Methodology Guide with respect to the content and format of various data prepared in connection with the renewal process.

The Manager or Sub-Adviser may not have been able to, or opted not to, provide information in response to certain information requests, in which case the Board conducted its evaluation based on the information that was provided. In such cases, the omission of any such information was not deemed to be material to the Board’s considerations.

Provided below is an overview of certain material factors that the Board considered at its meetings regarding the renewal of the Contracts and the compensation to be paid thereunder. The Board members did not identify any particular information or factor that was most relevant to its consideration.

### **Nature, Extent and Quality of Services**

The Manager oversees, subject to the authority of the Board, and is responsible for the provision of, all investment advisory and portfolio management services for the Funds, but may delegate certain of these responsibilities to one or more sub-advisers. In addition, the Manager provides administrative services reasonably necessary for the operation of the Funds as set forth in the Management Contracts, including oversight of the Funds’ operations and risk management and the oversight of their various other service providers.

The Board considered the “manager-of-managers” structure of the Voya funds that has been developed by the Manager pursuant to which the Manager selects, subject to the Board’s approval, sub-advisers to provide day-to-day management services to all or a portion of each Voya fund. The Board recognized that the Manager is responsible

for monitoring the Sub-Adviser's investment program, performance, developments, ongoing operations, and compliance with applicable regulations and investment policies and restrictions with respect to the Funds under this manager-of-managers arrangement. The Board also considered the techniques and resources that the Manager has developed to provide this ongoing due diligence and oversight with respect to the sub-advisers and to recommend appropriate changes in investment strategies, sub-advisers, or allocation among sub-advisers in an effort to improve a Voya fund's performance. In connection with the Manager's performance of these duties, the Board considered that the Manager has developed an oversight process formulated by its Manager Research & Selection Group that reviews, among other matters, performance data, the Sub-Adviser's management team, portfolio data and attribution analysis related to the Sub-Adviser through various means, including, but not limited to, in-person meetings, on-site or virtual visits, and telephonic meetings with the Sub-Adviser.

Further, the Board considered periodic compliance reports it receives from the Trusts' Chief Compliance Officer evaluating, among other related matters, whether the regulatory compliance systems and procedures of the Manager and Sub-Adviser are reasonably designed to ensure compliance with the federal securities laws and whether the investment policies and restrictions for each Fund are complied with on a consistent basis.

The Board considered the portfolio management team assigned by the Sub-Adviser to the Funds and the level of resources committed to the Funds (and other relevant funds in the Voya funds) by the Manager and Sub-Adviser, and whether those resources are sufficient to provide high-quality services to the Funds.

Based on their deliberations and the materials presented to them, the Board concluded that the nature, extent and quality of the overall services provided by the Manager and Sub-Adviser under the Contracts were appropriate.

### **Fund Performance**

In assessing the investment management and sub-advisory relationships, the Board placed emphasis on the investment returns of each Fund, including its investment performance over certain time periods compared to the Fund's Morningstar, Inc. ("Morningstar," an independent provider of mutual fund data) category and primary benchmark, a broad-based securities market index. The Board also considered information from the Manager Research & Selection Group and received reports summarizing a separate analysis of each Fund's performance and risk, including risk-adjusted investment return information, from

the Trusts' Chief Investment Risk Officer.

### **Economies of Scale**

When evaluating the reasonableness of the management fee schedules, the Board considered whether economies of scale have been or likely will be realized by the Manager and the Sub-Adviser if and when a Fund grows larger and the extent to which any such economies are shared with the Fund. In this regard, the Board noted that there is no management fee charged pursuant to the Management Contracts or the Sub-Advisory Contracts. The Board also considered that the Funds have fee waiver and expense reimbursement arrangements. The Board considered the extent to which economies of scale realized by the Manager could be shared with each Fund through such fee waivers, expense reimbursements or other expense reductions.

### **Information Regarding Services, Performance, and Fee Schedules Offered to Other Clients**

The Board considered comparative information regarding the nature of services, performance, and fee schedules offered by the Manager and Sub-Adviser to other clients with similar investment objectives, if applicable, including other registered investment companies and relevant institutional accounts. When the fee schedules offered to or the performance of such other clients differed materially from a Fund, the Board took into account the underlying rationale provided by the Manager or Sub-Adviser, as applicable, for these differences.

### **Fee Schedules, Profitability, and Fall-out Benefits**

The Board reviewed and considered the contractual management fee schedule and management fee rate payable by each Fund to the Manager compared to the Fund's Selected Peer Group. In this regard, as noted above, the Board noted that there is no management fee charged pursuant to the Management Contracts or the Sub-Advisory Contracts. The Board considered the fee waivers, expense limitations, and recoupment arrangements that apply to the fees payable by the Funds, including whether the Manager proposed any changes thereto. For each Fund, the Board separately determined that the fee schedules are reasonable for the services that the Manager and Sub-Adviser performs, which were considered in light of the nature, extent and quality of the services that each has performed and is expected to perform.

For each Fund, the Board considered information on revenues, costs and profits or losses realized by the Manager and the Voya-affiliated Sub-Adviser related to their services to the Fund. In analyzing the profitability of

the Manager and its affiliates in connection with services they render to a Fund, the Board took into account that there is no sub-advisory fee payable by the Manager to the Sub-Adviser under the Sub-Advisory Contracts. The Board also considered the profitability of the Manager and its affiliated Sub-Adviser attributable to servicing each Fund both with and without taking into account the profitability of the distributor of the Funds and any revenue sharing payments made by, or other distribution-related expenses incurred by, the Manager.

Although the Methodology Guide establishes a framework for profit calculation by the Manager and its affiliated Sub-Adviser, the Board recognized that there is no uniform methodology within the asset management industry for determining profitability for this purpose. The Board also recognized that the use of different reasonable methodologies can give rise to dramatically different reported profit and loss results with respect to the Manager and the Voya-affiliated Sub-Adviser, as well as other industry participants with whom the profits of the Manager and its affiliated Sub-Adviser could be compared. In addition, the Board recognized that management's calculations regarding its costs incurred in establishing the infrastructure necessary for the Funds' operations may not be fully reflected in the expenses allocated to each Fund in determining profitability. The Board also recognized that the information presented may not portray all of the costs borne by the Manager or reflect all of the risks associated with offering and managing a mutual fund complex in the current regulatory and market environment, including entrepreneurial, regulatory, legal and operational risks.

The Board also considered that the Manager and the Voya-affiliated Sub-Adviser are entitled to earn a reasonable level of profits for the services that they provide to the Funds. The Board also considered information regarding the potential fall-out benefits to the Manager and Sub-Adviser and their respective affiliates from their association with the Funds. Following its reviews, the Board determined that the Manager's and the Voya-affiliated Sub-Adviser's profitability with respect to their services to the Funds and the Manager's and Sub-Adviser's potential fall-out benefits were not unreasonable.

### **Fund-by-Fund Analysis**

Set forth below are certain of the specific factors that the Board considered at its October 9, 2024, November 12, 2024, and/or November 14, 2024 meetings in relation to approving each Fund's Contracts and the conclusions reached by the Board. These specific factors are in addition to those considerations discussed above. The performance data provided to the Board primarily was for various periods ended March 31, 2024. In addition, the

Board also considered at its October 9, 2024, November 12, 2024, and/or November 14, 2024 meetings certain additional data regarding each Fund's more recent performance, asset levels and asset flows. Each Fund's management fee rate and expense ratio were compared to the management fee rates and expense ratios of the funds in its Selected Peer Group. With respect to the quintile rankings noted below, the first quintile represents the range of funds with the highest performance or the lowest management fee rate or expense ratio, as applicable, and the fifth quintile represents the range of funds with the lowest performance or the highest management fee rate or expense ratio, as applicable.

### **EMHCD Fund**

In considering whether to approve the renewal of the Contracts for the EMHCD Fund, the Board considered that, based on performance data for the periods ended March 31, 2024: (1) the Fund is ranked in the second quintile of its Morningstar category for the year-to-date and one-year periods; and (2) the Fund outperformed its primary benchmark for the year-to-date and one-year periods.

In analyzing this performance data, the Board took into account that the Fund commenced operations in February 2023, and therefore had a limited operating history for the purpose of analyzing its performance.

In considering the fees payable under the Contracts for the Fund, the Board took into account the factors described above and also considered the pricing structure (including the net expense ratio to be borne by shareholders) of the Fund, as compared to its Selected Peer Group, including that: (a) the Fund's net management fee rate is ranked in the third quintile; (b) the Fund's contractual management fee rate is ranked in the first quintile; and (c) the Fund's net expense ratio is ranked in the third quintile.

### **SC Fund**

In considering whether to approve the renewal of the Contracts for the SC Fund, the Board considered that, based on performance data for the periods ended March 31, 2024: (1) the Fund is ranked in the first quintile of its Morningstar category for the year-to-date and one-year periods; and (2) the Fund outperformed its primary benchmark for the year-to-date and one-year periods.

In analyzing this performance data, the Board took into account that the Fund commenced operations in March 2023, and therefore had a limited operating history for the purpose of analyzing its performance.

In considering the fees payable under the Contracts for the

## ADVISORY AND SUB-ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

---

Fund, the Board took into account the factors described above and also considered the pricing structure (including the net expense ratio to be borne by shareholders) of the Fund, as compared to its Selected Peer Group, including that: (a) the Fund's net management fee rate is ranked in the first quintile; (b) the Fund's contractual management fee rate is ranked in the first quintile; and (c) the Fund's net expense ratio is ranked in the first quintile.

### **HYB Fund**

In considering whether to approve the renewal of the Contracts for the HYB Fund, the Board considered that, based on performance data for the periods ended March 31, 2024: (1) the Fund is ranked in the fourth quintile of its Morningstar category for the year-to-date and one-year periods; and (2) the Fund underperformed its primary benchmark for the year-to-date and one-year periods.

In analyzing this performance data, the Board took into account (1) management's confidence in the portfolio management team and its ability to execute the Fund's investment strategy; and (2) that the Fund commenced operations in February 2023, and therefore had a limited operating history for the purpose of analyzing its performance.

In considering the fees payable under the Contracts for the Fund, the Board took into account the factors described above and also considered the pricing structure (including the net expense ratio to be borne by shareholders) of the Fund, as compared to its Selected Peer Group, including that: (a) the Fund's net management fee rate is ranked in the third quintile; (b) the Fund's contractual management fee rate is ranked in the first quintile; and (c) the Fund's net expense ratio is ranked in the second quintile.

### **Board Conclusions**

After its deliberation, the Board concluded that, in its business judgment, the terms of the Contracts are fair and reasonable to each Fund and that approval of the continuation of the Contracts is in the best interests of each Fund and its shareholders. In doing so, the Board reviewed all factors it considered to be material, including those discussed above. Within the context of its overall conclusions regarding the Contracts, and based on the information provided and management's related representations, the Board concluded that it was satisfied with management's responses relating to each Fund's investment performance and the fees payable under the Contracts. During this renewal process, each Board member may have accorded different weight to various factors in reaching his or her conclusions. Based on these conclusions and other factors, the Board voted to renew

the Contracts for each Fund for the year ending November 30, 2025.
